

YASHU SHUKLA

Data Scientist · ML Engineer · Hanyang University

yashushukla2014@gmail.com | +82-2177-8965 | Seoul, South Korea | github.com/ys2064

Education

B.E. in Data Science Hanyang University, South Korea Major: Data Science Engineering & Physiological Brain Science GPA: 4.0 / 4.5	2022 – 2026
High School Vibgyor High School, India (Science) Top 5 in Grade 12 (92.6%) Top 10 in Grade 10 (93.5%)	2015 – 2022
Primary School International School of Koje, South Korea	2008 – 2015

Technical Skills

Languages: Python, C, C++, R, JavaScript, TypeScript

Frameworks/Tools: PyTorch, TensorFlow, scikit-learn, Keras, NumPy, pandas, Matplotlib, Seaborn, Django, ROS, ELK Stack, Angular 10

Robotics / Cloud / DB: Isaac Sim/Lab, Robot Manipulation, 3D Object Scanning, AWS, GCP, SQL, PostgreSQL

Experience

AI Research Engineer Intern | **RLWRLD, Seoul** Dec 2025 – Present

- Built and curated robotic interaction datasets in Isaac Sim, including 3D object scanning, simulation environments, and data preparation.
- Trained and evaluated VLA models (GR00T, Pi) for robotic manipulation tasks.
- Optimized dataset composition and distribution for Robot Foundation Model (RFM) training; contributing to a dexterous-first RFM for humanoid robotics.

Data Science Intern | **w3company, Seoul** Mar 2025 – Dec 2025

- Built an ML-driven multi-module fake-account & anomaly detection system (patent filed); trained ResNet classifiers to detect AI-generated profile photos and fraudulent identities.
- Developed and evaluated BERT-based NLP models for sentiment analysis and text classification for a social networking app (Moji), extracting user-engagement insights from large datasets.

Teaching Assistant | **Hanyang University, Seoul** Sep – Dec 2024

- Managed a class of 30+ students for “Understanding Business Environment”; facilitated group discussions and class activities.

Software Engineer Intern | **Bespoke System Pvt. Ltd., India** Jul – Aug 2024

- Full-stack web development with ASP.NET, MS SQL, Angular 10, and Web API; focused on API integration and database management.

Publications & Conferences

- Research Contributor** — “RLDX-1 Technical Report” (arXiv), May 2026. VLA systems & Robot Foundation Models for dexterous humanoid manipulation; end-to-end automated training and inference pipeline.
- Poster Presenter** — “Cerebellum Activation in Depression,” Korean Society for Brain and Neural Sciences (KSBNS), Aug 2025.
- Research Attendee** — 12th Swiss-Korean Life Science Symposium, Seoul, May 2025.

Projects

Stress Detection via mmWave Radar Mar – Dec 2025

Contactless health vitals monitoring using mmWave radar; denoised vital-sign data for feature extraction.

StressMate — Mental Wellness App May – Jun 2025

Django + LLMs (Perplexity, Gemini) with RAG, deployed on AWS EC2/S3.

Cerebellar fMRI Analysis in MDD May – Jun 2025

fMRI analysis revealing significantly reduced cerebellar response to positive stimuli in MDD patients vs. controls.

PlateCheck Oct – Dec 2024

LLM-based Korean food ingredient recognition using fine-tuned ResNet + GPT-4o Mini; HCI user study evaluation.

Food Demand Forecasting Oct – Dec 2024

Time-series model using Temporal Convolutional Network (TCN) on historical sales data.

News Audio Summarizer Sep – Dec 2024

NLP pipeline converting audio news to text with fine-tuned BART summarization.

Scholarships & Achievements

Hanyang Brain (Academic Excellence) Scholarship | **Awarded 3 consecutive semesters** 2025 – 2026

Daewoong Foundation Global Scholarship Nov 2025 – Mar 2026

Special Scholarship for Academic Encouragement – Foreigner, Hanyang University Sep – Dec 2024

Languages & Extracurricular

Languages: English & Hindi (Native) | Gujarati (Intermediate) | Korean (Beginner)

Activities: Basketball & Badminton | Dance: Kathak Senior Diploma (5 yrs) | Indian Embassy Performer, Seoul
