15th December 2025

To Whom It May Concern

This is to certify that **Ms. YASHU SHUKLA** has successfully completed her Data Science internship at **w3company-Seoul South Korea** from March 2025 to August 2025, and additionally worked with us as a part-time Data Scientist from September 2025 to December 2025. During this combined period of 10 months, she contributed to various tasks and gained hands-on experience in data-related projects.

During her internship, she conducted extensive data analysis and extracted meaningful insights from large datasets to support data-driven decisions. She also worked on developing and evaluating machine learning models for natural language processing tasks, focusing on applications in sentiment analysis and text classification. In addition, Ms. Shukla contributed to improving user engagement on the company's social platform by enhancing the matchmaking algorithm through behavioral analysis and user interaction data.

Furthermore, she was an integral part of our R&D team in the IP-linked R&D Strategy Support Project. Notably, she actively contributed to the development and publication of an AI security patent. Her responsibilities covered the entire patent development process, including researching and formalizing the patent concept, collaborating with a government patent attorney, developing and testing a multi-model AI system for detecting inauthentic users in a social platform, and drafting and submitting the patent documentation. Her involvement in this end-to-end process demonstrated her strong technical expertise, attention to detail, and ability to manage complex, high-impact projects.

She consistently demonstrated dedication, a proactive work ethic, and made meaningful contributions to the team. We appreciate the hard work and commitment she exhibited during her tenure with us and wish her continued success in all future endeavors. She gained valuable practical experience during this period and has the potential to make significant contributions to her chosen field.

Please feel free to contact us for any further information.

Sincerely,
Woongs Choi
CEO
